Encode Club Hack
January 2021

Approach to Tellor Challenge

TELLOR PLAYGROUND

Tellor is a decentralised oracle network and Tellor Playground aims to help anyone building on Tellor to test and implement ideas such as this game

FRONTEND

Used Vue3, Vuex, and connected to the Ropsten network via abi's and contract addresses. Deployed to live via AWS cloudfront

CONTRACTS MANAGEMENT

Used Hardhat to compile and deploy the Celebrity.sol contract using tellor. Each one of the 147 Tellorlds were submitted using Hardhat at the Ropsten testnet
